Re: Request for Information Pursuant to Section 104 of CERCLA for
Tuchman Cleaner Site in Indianapolis, Marion County, Indiana
Site Spill Identification Number: B5ZU

Dear Mr. Erickson:

This letter seeks your cooperation in providing information and documents relating to the contamination of the Tuchman Cleaners Superfund site at 4401 North Keystone in Indianapolis, Indiana (Site). The Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended, 42 U.S.C. §§ 9601-9675, commonly referred to as "CERCLA" and "Superfund", gives the United States Environmental Protection Agency the authority to, among other things: (1) assess contaminated sites, (2) determine the threats to human health and the environment posed by each site and (3) clean up those sites in the order of the relative threats posed by each.

EPA is responding to the release or threat of release of hazardous substances, pollutants or contaminants at the Site and is seeking additional information concerning the generation, storage, treatment, transportation and methods used to dispose of such substances. In addition, EPA is identifying activities, materials and parties that contributed to contamination at the Site. You are listed as a principal of Tuchman Cleaners, Inc. on its 2006/2007 Indiana Business Entity Report; therefore EPA believes that you might possess information which may assist us with this effort.

We encourage you to give this matter your immediate attention and request that you provide a complete and truthful response to this Information Request and enclosed questions (Enclosure B) within fourteen (14) calendar days of your receipt of this letter.

Under Section 104(e)(2) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended, (CERCLA), 42 U.S.C. § 9604(e)(2), EPA has broad information gathering authority which allows EPA to require persons to furnish information or documents relating to:

(A) The identification, nature and quantity of materials which have been or are generated, treated, stored or disposed of at a vessel or facility or transported to a vessel or facility.

(B) The nature or extent of a release or threatened release of a hazardous substance or pollutant or contaminant at or from a vessel or facility.

(C) Information relating to the ability of a person to pay for or to perform a cleanup.

While EPA seeks your cooperation in this investigation, compliance with the Information Request is required by law. In addition, providing false, fictitious or fraudulent statements or representations may subject you to criminal penalties under 18 U.S.C. § 1001. The information you provide may be used by EPA in administrative, civil or criminal proceedings.

Some of the information EPA is requesting may be considered by you to be confidential. Please be aware that you may not withhold the information upon that basis. If you wish EPA to treat the information confidentially, you must advise EPA of that fact by following the procedures outlined in Enclosure A, including the requirement for supporting your claim for confidentiality.

If you have information about other parties who may have information which may assist the Agency in its investigation of the Site or may be responsible for the contamination at the Site, that information should be submitted within the time frame noted above.

Section 104 of CERCLA, 42 U.S.C. § 9604, authorizes EPA to pursue penalties for failure to comply with that section or for failure to respond adequately to requests for submissions of required information.

This Information Request is not subject to the approval requirements of the Paperwork Reduction Act of 1995, 44 U.S.C. § 3501 *et seq.*

Instructions on how to respond to the questions in Enclosure B to this document are described in Enclosure A. Your response to this Information Request should be mailed to:

4. Identify Sources of Answer. For each question, identify (see Definitions) all the persons and documents that you relied on in producing your answer.
5. Continuing Obligation to Provide/Correct Information. If additional information or documents responsive to this Request become known or available to you after you respond to this Request, EPA hereby requests pursuant to Section 104(e) of CERCLA that you supplement your response to EPA.

To make a confidentiality claim, please stamp or type "confidential" on all confidential responses and any related confidential documents. Confidential portions of otherwise non-confidential documents should be clearly identified. You should indicate a date, if any, after which the information need no longer be treated as confidential. Please submit your response so that all non-confidential information, including any redacted versions of documents, is in one envelope and all materials for which you desire confidential treatment are in another envelope.

All confidentiality claims are subject to EPA's verification. It is important that you satisfactorily show that you have taken reasonable measures to protect the confidentiality of the information and that you intend to continue to do so, and that it is not and has not been obtainable by legitimate means without your consent. Information covered by such claim will be disclosed by EPA only to the extent permitted by Section 104(e) of CERCLA. If no such claim accompanies the information when it is received by EPA, then it may be made available to the public by EPA without further notice to you.

If you are submitting information which you assert is entitled to treatment as confidential business information, you may comment on this intended disclosure within fourteen (14) calendar days of receiving this Information Request.

8. Personal Privacy Information. Personnel and medical files, and similar files, the disclosure of which to the general public may constitute an invasion of privacy, should be segregated from your responses, included on separate sheet(s) and marked as "Personal Privacy Information."
